Y19/0469/FH Park Farm (Condition 20 of Y18/1043/FH)

Dear Peter,

Thank you for providing the *Remedial Strategy and Method Statement* (ref: UK19.4815 Issue 1) by EPS dated 20 December 2019.

I can confirm that the report is acceptable and I can now recommend to the Council that the technical requirements of part 2 of Condition 20 of Y18/1043/FH have been met.

From an administrative perspective, you will need to liaise with your planning case officer regarding the formal discharge process.

I look forward to receiving the verification report (part 3 of condition 20) in due course.

Best regards,

Lisa

Importance: High

Dear Lisa

Please find attached a Remedial Strategy and Method Statement from EPS which ought to address the requests in your email dated 4th December. I trust this is sufficient to discharge the condition as far as possible at this stage.

The Council are in copy to upload this to the website.

Kind regards

Peter
