Customer Name - Peter and Karen Ingelbrecht, [REDACTED]

Customer Email - [REDACTED]

Message - Application ref - Y19/0490/FH Manor Court CT20 2SE There are a number of concerns for us, [REDACTED] in consideration of this planning application. 1. To do away with parking areas in an already very built up area in the centre of town seems unreasonable. 2. Building 7 additional dwellings (Presumably some, if not all, occupants will also own vehicles) with no further facility to park would add more congestion. 3. The 900 year lease of the tenants of Manor Court specify the land is for their enjoyment and they have dedicated parking as part of that remit which we believe it would be illegal to try to remove. This would also create more parking congestion on the road. 4. A commercial property on the site would add additional parking problems on Manor Road as there are yellow lines directly in front of the proposed venture. 5. Being unclear if this is a four or five storey building with or without roof garden is in itself grounds for further concern. 6. [REDACTED] [REDACTED] we would be overlooked, [REDACTED] privacy compromised, our light diminished and our view obscured.
