Subject: Support for Folkestone Track

Follow Up Flag: Follow up
Flag Status: Flagged

I am writing with my support for a track for the Folkestone athletes.

I am the proud Mum of two boys, who have both made excellent progress in their running, fitness, and team spirit since joining the Club.

One has won the cross country for his age group for the last two years and could have a promising future in running.

A track would really help bring that possibility to him any other athletes as well as providing an excellent facility for local clubs and schools to benefit from.

With other clubs and work priorities, I would struggle to get either of my children to Ashford to use their facilities.

My children are inspired by the success of local athletes and it would be great if we could support them to reach their full potential, possibly creating future home grown Olympians!
