

I would like a running track in Folkestone because...

Every Monday, I do track training for my athletics club. We do this in Ashford as it is the closest running track.

I believe having a running track in Folkestone will also benefit nearby schools as well as the running club and members of the community that want to become more active.

Having a track in Folkestone will mean kids can go and run on a proper track, rather than sitting indoors all day and playing on devices.
