Subject: Application Y19/0197/FH

To whom it may concern,

With regards to the above application i would like to point out my concerns over noise whether it is from drunk customers or loud music.

My Family and i live within 30 secs walk of this property once you exit our front door. My concerns came to fruition when you granted planning permission, also in the Town Walk, to a Bar called Junction 13. They played loud music up to closing time 2 to 3 times per week when they first opened, sometimes until 0200hrs in the morning. We raised the same concerns about this and you still granted permission. We had to make a complaint [REDACTED] one of your Environmental Officers took up our case last year.

Gratefully he resolved the issue but recently it has restarted.

Junction 13 is slightly closer, about a 10 sec walk from our front door.

If you grant this it would mean that any direction from our front door in less than 30 secs will be an alcohol related business. Is this fair??

Before you say we should not of moved here then, we have lived here for 31 years.

Mr D.Bennett,
[REDACTED]
