Subject: [SUSPICIOUS MESSAGE] Application number Y19/0481/FH

Dear Sir or Madam

I am objecting to the above application, I live [REDACTED] all of my windows and balcony are directly above the proposed alterations. I am already putting up with the noise, smoke, smells and flies coming into my flat from the dining area set up on the pavement below me if this application is granted things would become much worse as there will be more people gathering outside to smoke and chat on there phones, more taxis coming and going until well after 11pm. The situation is at it's worst during the good weather when I would like to be able to open my windows or use my balcony but can't. An open fronted restaurant on the office level will bring a lot of the irritations that much closer to me and what's to stop all the other offices from having change of use?

All the residents in Aspen house and nearby should have the right to a peaceful occupation in there homes.

Yours faithfully
Janet Keys
