19 May 2019

Dear Ms Daniels,

23 MAY 2019

Application No Y19/0409/FH
Redlynch House, Hillcrest Road, Hythe, Kent

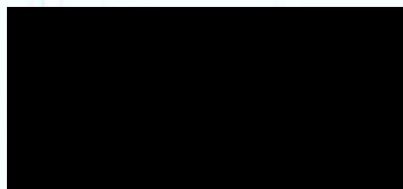

With reference to the above application to vary existing plans for the Redlynch House Development.

As an adjoining neighbour and having studied the amended plans, we would like to register our strong objections to the proposal to increase the size of the balconies to the first floor. The site is small for the intended 8 flats and at present the agreed permission is for balconies of 1.5 metres. The new application proposes a doubling in size to 3 metres, making the balconies into a very large projected area, overlooking all the surrounding properties, and dominating the outlook from adjoining gardens. Even with privacy screening we believe there would be a greater invasion of our privacy in terms of overlooking and the associated noise. For this reason we strongly object to any increase.

Yours sincerely,

G R Griggs
