Dear Planning team

I am one of your residents who is greatly in favour of this development. At present the site is a total eyesore and really gives the wrong impression of being uncared for to visitors to Hythe,

From the artistic representation of the development, that section of the seafront will look very impressive especially with the gardens linking the development up to the golf course. The 800+ members of the Hythe's current swimming pool can't wait for that new facility.

I wish you luck with your planning consent.

Mary Hunter
