Subject: Y17/1042/SH. OBJECTION

Dear Sirs,

I strongly object to the planning application for Princes Parade, and the Environmental Statement addendum.

The addendum shows revision to the highway which will be detrimental to the canal and the varied wildlife and wildlife habitats there through the concern of drainage into the canal and the even closer proximity of the road to the canal.

There is an alternative option of building a swimming pool at Martello Lakes which would eliminate all the concerns of flooding and managing flooding, drainage into the canal, wildlife disruption, and spoiling the beauty and openness of that particular area of our sea front which makes this application even more unwanted and unnecessary apart from being potentially calamitous.

Yours faithfully,

Nicki Stuart
