Subject: FW: Planning consultation - Planning Application - 20/0511/FH

Thank you for consulting us on this application.

The site lies in an area of early prehistoric and industrial archaeological potential. However, as the site was formerly crossed by a 19th century railway and this was subsequently taken up in the early to mid-20th century, I consider it unlikely that the proposed works will have a significant archaeological impact at this site and have no further comments to make in this case.

Yours sincerely
