**Subject:** Planning application - Y18/1269/FH

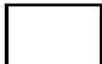

Dear Alexander Kalorkoti,

Planning application Y18/1269/FH

I am a resident of Albert Road and have great concerns about this planning application. It is the parking arrangements (not the housing) to which I object. Driving down Albert Road is already hazardous because of the street parking on one side of the road. Because of the narrowness of the road, passing is not possible if a vehicle is coming the other way. It would be impossible for a vehicle exiting from the planned area to manoeuvre in the street and would cause considerable obstruction while trying to do so. It would be dangerous. There is no other residence between Park Road and Windmill Street where manoeuvring on exit would have to be done on Albert Road itself. It would be a disaster waiting to happen.

Yours faithfully,

P. Melville
