

Hi Elouise,

Sorry for the delay in responding to your email, I have just got back from holiday and Clive did not manage to finish his comments before I came back.

Please find attached Clive's comments on the above application for Becketts Barn for your records

Kind regards
Chenice

Subject: RE: Becketts Barn (Solar Panel Application) Y16/1168/SH and Y16/1169/SH

Good morning,

Could I please get comments on these applications?

One is Listed Building Consent and the other is planning permission for the installation of 16 solar panels to the roof of a listed building.

Kind regards,

Hello Chenice,

Could you please pass these details on to Clive for the applications at Becketts Barn (Y16/1168/SH and Y16/1169).

The application didn't include details of how the solar panels would be attached to the roof of the barn (listed building), so please see below.

Many thanks,

In answer to your queries below I can confirm the following.

01. There will no other alterations to the roof other than the fixing of the solar panels as noted below.

02. The solar panels will be fixed to aluminium rails which are fixed to the roof structure via the Solar Limpet mounting system. The limpets are made of high density pvc and are not visible. The aluminium rails are not visible as they are located under the solar panels.

03. The fixing details of the limpets can be seen at the following link

04. I attach a photograph showing 2 installations of solar panels using the aluminium rail and Solar Limpet system

Please let me know if you would like further information.

Dear Mr Ashenden-Bax,

Re: Y16/1168/SH & Y16/1169/SH – Beckets Barn

I am writing regarding the above applications for listed building consent and planning permission to mount 16 solar panels to the roof of Beckets Barn, as the case officer for this application. I wondered if you could provide me with details of how the solar panels will be mounted to the roof, what materials will be used and whether any alterations to the roof will be made to allow for the solar panels to be mounted?

Kind regards,
