Dear Sir. I am amazed that SDC keep on sending us planning applications in really unsuitable areas. This plot for over 160 houses is just near the rail and motorway bridges which will make for very difficult access. It wants throwing out. Y16/1122/sh. Sellindge will disappear under concrete and all the down sides with it are not wanted. When there was an exhibition for this plan no one wanted it. If an exit came out in Swan Lane that would be dangerous as the road is not very wide with parked cars and huge farm vehicles constantly on their way to and fro from farms. Kick this planning application out. There will be no affordable housing what that means is poor construction and the houses they would put up are only suitable for hamsters. Yours Margaret Ludlow.
I Object strongly.
