Subject: Land Opposite Watering Hole Dungeness Road / Y17/0731/SH

Hi Paul,

Ref: Land Opposite Watering Hole Dungeness Road / Y17/0731/SH

The proposed location for the sign is located within:

- Dungeness, Romney Marsh and Rye Bay - Site of Special Scientific Interest (SSSI);

However, as the proposal is for a single free standing replacement of the entrance sign to Dungeness estate, we are satisfied that there will be limited ecological impacts.

Kind regards,

Nathan.
