6. Non-Material Amendment(s) Sought

*Please describe the non-material amendment(s) you are seeking to make:

Removal of condition 21 and its replacement as follows:

Construction shall not commence until written documentary evidence has been submitted to, and approved in writing by, the local planning authority proving the development will achieve a maximum water use of 110 litres per person per day as defined in paragraph 36(2)(b) of the Building Regulations 2010 (as amended). Such evidence shall be in the form of a design stage water efficiency calculator.

The development hereby permitted shall not be occupied until written documentary evidence has been submitted to, and approved by, the local planning authority, proving that the development has achieved a maximum water use of 110 litres per person per day as defined in paragraph 36(2)(b) of the Building Regulations 2010 (as amended). Such evidence shall be in the form of a post-construction stage water efficiency calculator.

Reason

In accordance with the requirements of policies CSD5 and SS3 of the Shepway Core Strategy Local Plan 2013 which identify Shepway as a water scarcity area and require all new dwellings to incorporate water efficiency measures.

Details of the pre-application advice received:

While you can proceed with this application type, the way we have normally been dealing with removing this condition is through a non-material amendment application. This is a much simpler process (and cheaper) with no consultation period required and the decision is normally issued within a couple of weeks of receiving a valid application.

We would look to replace the code for sustainable homes condition with a water efficiency condition as follows:

Construction shall not commence until written documentary evidence has been submitted to, and approved in writing by, the local planning authority proving the development will achieve a maximum water use of 110 litres per person per day as defined in paragraph 36(2)(b) of the Building Regulations 2010 (as amended). Such evidence shall be in the form of a design stage water efficiency calculator.

The development hereby permitted shall not be occupied until written documentary evidence has been submitted to, and approved by, the local planning authority, proving that the development has achieved a maximum water use of 110 litres per person per day as defined in paragraph 36(2)(b) of the Building Regulations 2010 (as amended). Such evidence shall be in the form of a post-construction stage water efficiency calculator.

Reason

In accordance with the requirements of policies CSD5 and SS3 of the Shepway Core Strategy Local Plan 2013 which identify Shepway as a water scarcity area and require all new dwellings to incorporate water efficiency measures.

Water efficiency calculations should be carried out using 'the water efficiency calculator for new dwellings' <https://www.gov.uk/government/publications/the-water-efficiency-calculator-for-new-dwellings>

Although this condition is similar to what is required from Building Regs, the condition we use is more stringent than Building Regs with lower water usage.

8. Site Visit

Can the site be seen from a public road, public footpath, bridleway or other public land?

☒ Yes ☐ No

If the planning authority needs to make an appointment to carry out a site visit, whom should they contact? (Please select only one)

☐ The agent ☒ The applicant ☐ Other person
