Subject: Objection to Seafront Development

I'm just voicing my objection to the proposed revised planning application for the Folkestone seafront development. I believe, from the plans that I've seen, that this would be totally out of keeping with the local environment and historical heritage aesthetic.

I feel that there has been a complete lack of transparency with regards to the actual agenda of this proposed monstrosity.

I feel that we need an urgent public meeting and consultation.

Yours Sincerely

Shane Warman
