Ref: Planning application 24/0228/FH
8 Lourdes Manor Close, Sellindge

Dear Sir,

living in such a small close in properties that have small gardens any extensions will be intrusive to a number of residents. This application, if allowed, could seriously restrict our current outlook.

Being a small close parking is an issue for residents and visitors alike and any tradesmen needing to park causes extreme difficulties while work is in progress. With work of this nature this could be an extensive problem for residents over a period of time.

For these reasons, therefore, we are opposed to this application.

Yours sincerely

Mr D & Mrs S Barnwell
