Subject: Re: 24/1650/FH - Bus station, Bouverie Square, Folkestone

Dear Mr Byrne

We would comment on the planning application as follows:

We note that the planning application is confined to the existing bus station site. The existing bus station building and the future on street bus stopping arrangements fall outside the scope of the application.

We have no comments about the application as it stands.

However, we do have concerns about the design and layout of the proposed on street stopping arrangements, primarily around the positions and configurations of the shelters and compliance with disabled access requirements, and with proposed raised speed tables. Discussions with KCC Highways to resolve these issues are ongoing.

Yours sincerely

John Pugh
